

PUBLIC NOTICE PUBLIC PARTICIPATION REQUIREMENT VIRGINIA VOLUNTARY REMEDIATION PROGRAM In accordance with the Public Participation requirements (9 VAC 20-160-120 (A)(3)) of the Virginia Department of Environmental Quality (DEQ) Voluntary Remediation Program (VRP), the General Public is hereby notified that Jim and Judy Usry have enrolled the property located at 80 North Boxwood Street, Hampton, Virginia (known as The Orchards) in the VRP program in order to obtain a Certificate of Satisfactory Completion for the property. Environmental contamination at the facility is thought to be a result of application of agricultural chemicals to peach trees over a period of approximately 50 years. Application of agrochemicals ceased by 2003. Agrochemicals were identified in soil and groundwater during a routine phase II site assessment of the property in 2007. The site was subsequently enrolled in the VRP, and site characterization and risk assessment studies have concluded that the site does not present a risk to human health. Written comments will be received for 30 days following publication of this notice by: Stokes Environmental Associates, Ltd. Attn: David A. Balsley, 4101 Granby Street, Suite 404, Norfolk, Virginia 23504. Information regarding this notice may be obtained by contacting David A. Balsley at 757-623-0777.
